

What else do you need to join the desktop revolution?

Everywhere people are absolutely mad about GNOME's elegance and ease-of-use. GNOME fuels some of the most successful Linux distributions and UNIX systems ever; it greases large-scale deployments all around the world, and it makes millions of small-scale gadgets tick. But yet, there's room for improvement.

[We want your ideas!](#)

Get on board and join GNOME's annual conference. Find out what GNOME is about to move next. Discuss the next steps of the desktop revolution!

[July 15th – 21st 2007](#)
[UCE Birmingham Conservatoire](#)
[Birmingham, UK](#)

Don't waste time and miss the opportunity to get in touch with industry leaders, brilliant hackers, Open Source enthusiasts, Free Software advocates, and fans of GNOME from all around the world! Attendance fees start at ??? Euros for students, only. Funding to cover travel expenses is available under certain circumstances.
